November 4, 2021

To whom it may concern:

Earlier this year masks became mandatory to enter our building. Masks must be worn to gain entry and must be worn in all indoor common areas and where social distancing cannot be observed. The only exceptions to this expectation are the medically exempt, while students are eating, during intense physical activity, or while outdoors. Students are expected to bring their own masks to school. The school does have some disposable masks available for guests or in emergency situations (e.g. broken mask during school day). However, we have had a problem with students coming to school not wearing a mask and expecting to just get a disposable mask each day. Unfortunately, we cannot continue to supply masks at this demand (approximately 100 masks or more a day).

Any support that you can provide would be appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Linda Green".

Linda Green-Principal
