To Members

Re: United Conservative Party voting

As citizens we have the privilege and duty of electing office holders. Participation in the political process affects our nation today and in the future. We urge our members to be active citizens by registering and then regularly exercising their right to vote.

We also encourage you to spend the time needed to become informed about the issues and candidates you will be considering as you vote.

There is a form available in the office for a membership application, if you would like to vote, please come into the office to fill it out.

Sincerely

Chief Lee Twinn
